Emergency & Veterinary Care Directory

Last updated: November 1, 2026

This is a list of emergency hospitals and regular veterinarians in and around Tompkins County. Please call ahead to confirm hours and whether they are taking new patients. If cost is a concern, ask about payment options before delaying care.

Is this an emergency?

Go to an emergency hospital right away if your pet has any of these signs. If you can, call on the way so they can get ready for you.

- Trouble breathing
- Pale or blue gums
- Collapse, or sudden severe weakness or confusion
- Bleeding that won't stop, or a major injury such as being hit by a car
- A swollen, hard belly, or trying to vomit with nothing coming up
- Straining to urinate with little or nothing coming out
- Seizures
- Possible poisoning

For anything else, call your regular veterinarian first. They can tell you how soon your pet needs to be seen.
